## **Program Overview**

### Global Scholarship Program

GSP offers valuable opportunities for international students to have a better understanding of the Korean language and social customs through academic lectures. It is an ideal program for those who would like to broaden their perspective in Korean culture and life style. Benefits are exemptions from tuition fees and on-campus dormitory fees with a special stipend.

### Regular Exchange Student Program

As an initiative to foster globalization efforts, CNU offers diverse forms of exchange programs. This program is contingent on the reciprocal agreement between the two schools. Benefits are exemptions from tuition fees, and free intensive Korean language class.

### Summer Session for International Students

Summer Session for International Students is a short term program for international students looking for opportunities to have academic courses and cultural activities. The primary purpose of SSIS is to offer academic credit-bearing courses: Korean Language 1 and an English elective course. In addition, SSIS offers a variety of cultural activities/field trips once a week throughout the six to seven-week summer session.
